STEPS TO GREATNESS:

* Send your file to print using a color printer. The heavier weight the paper the better. If possible use cardstock and set your printer settings to Highest Quality.
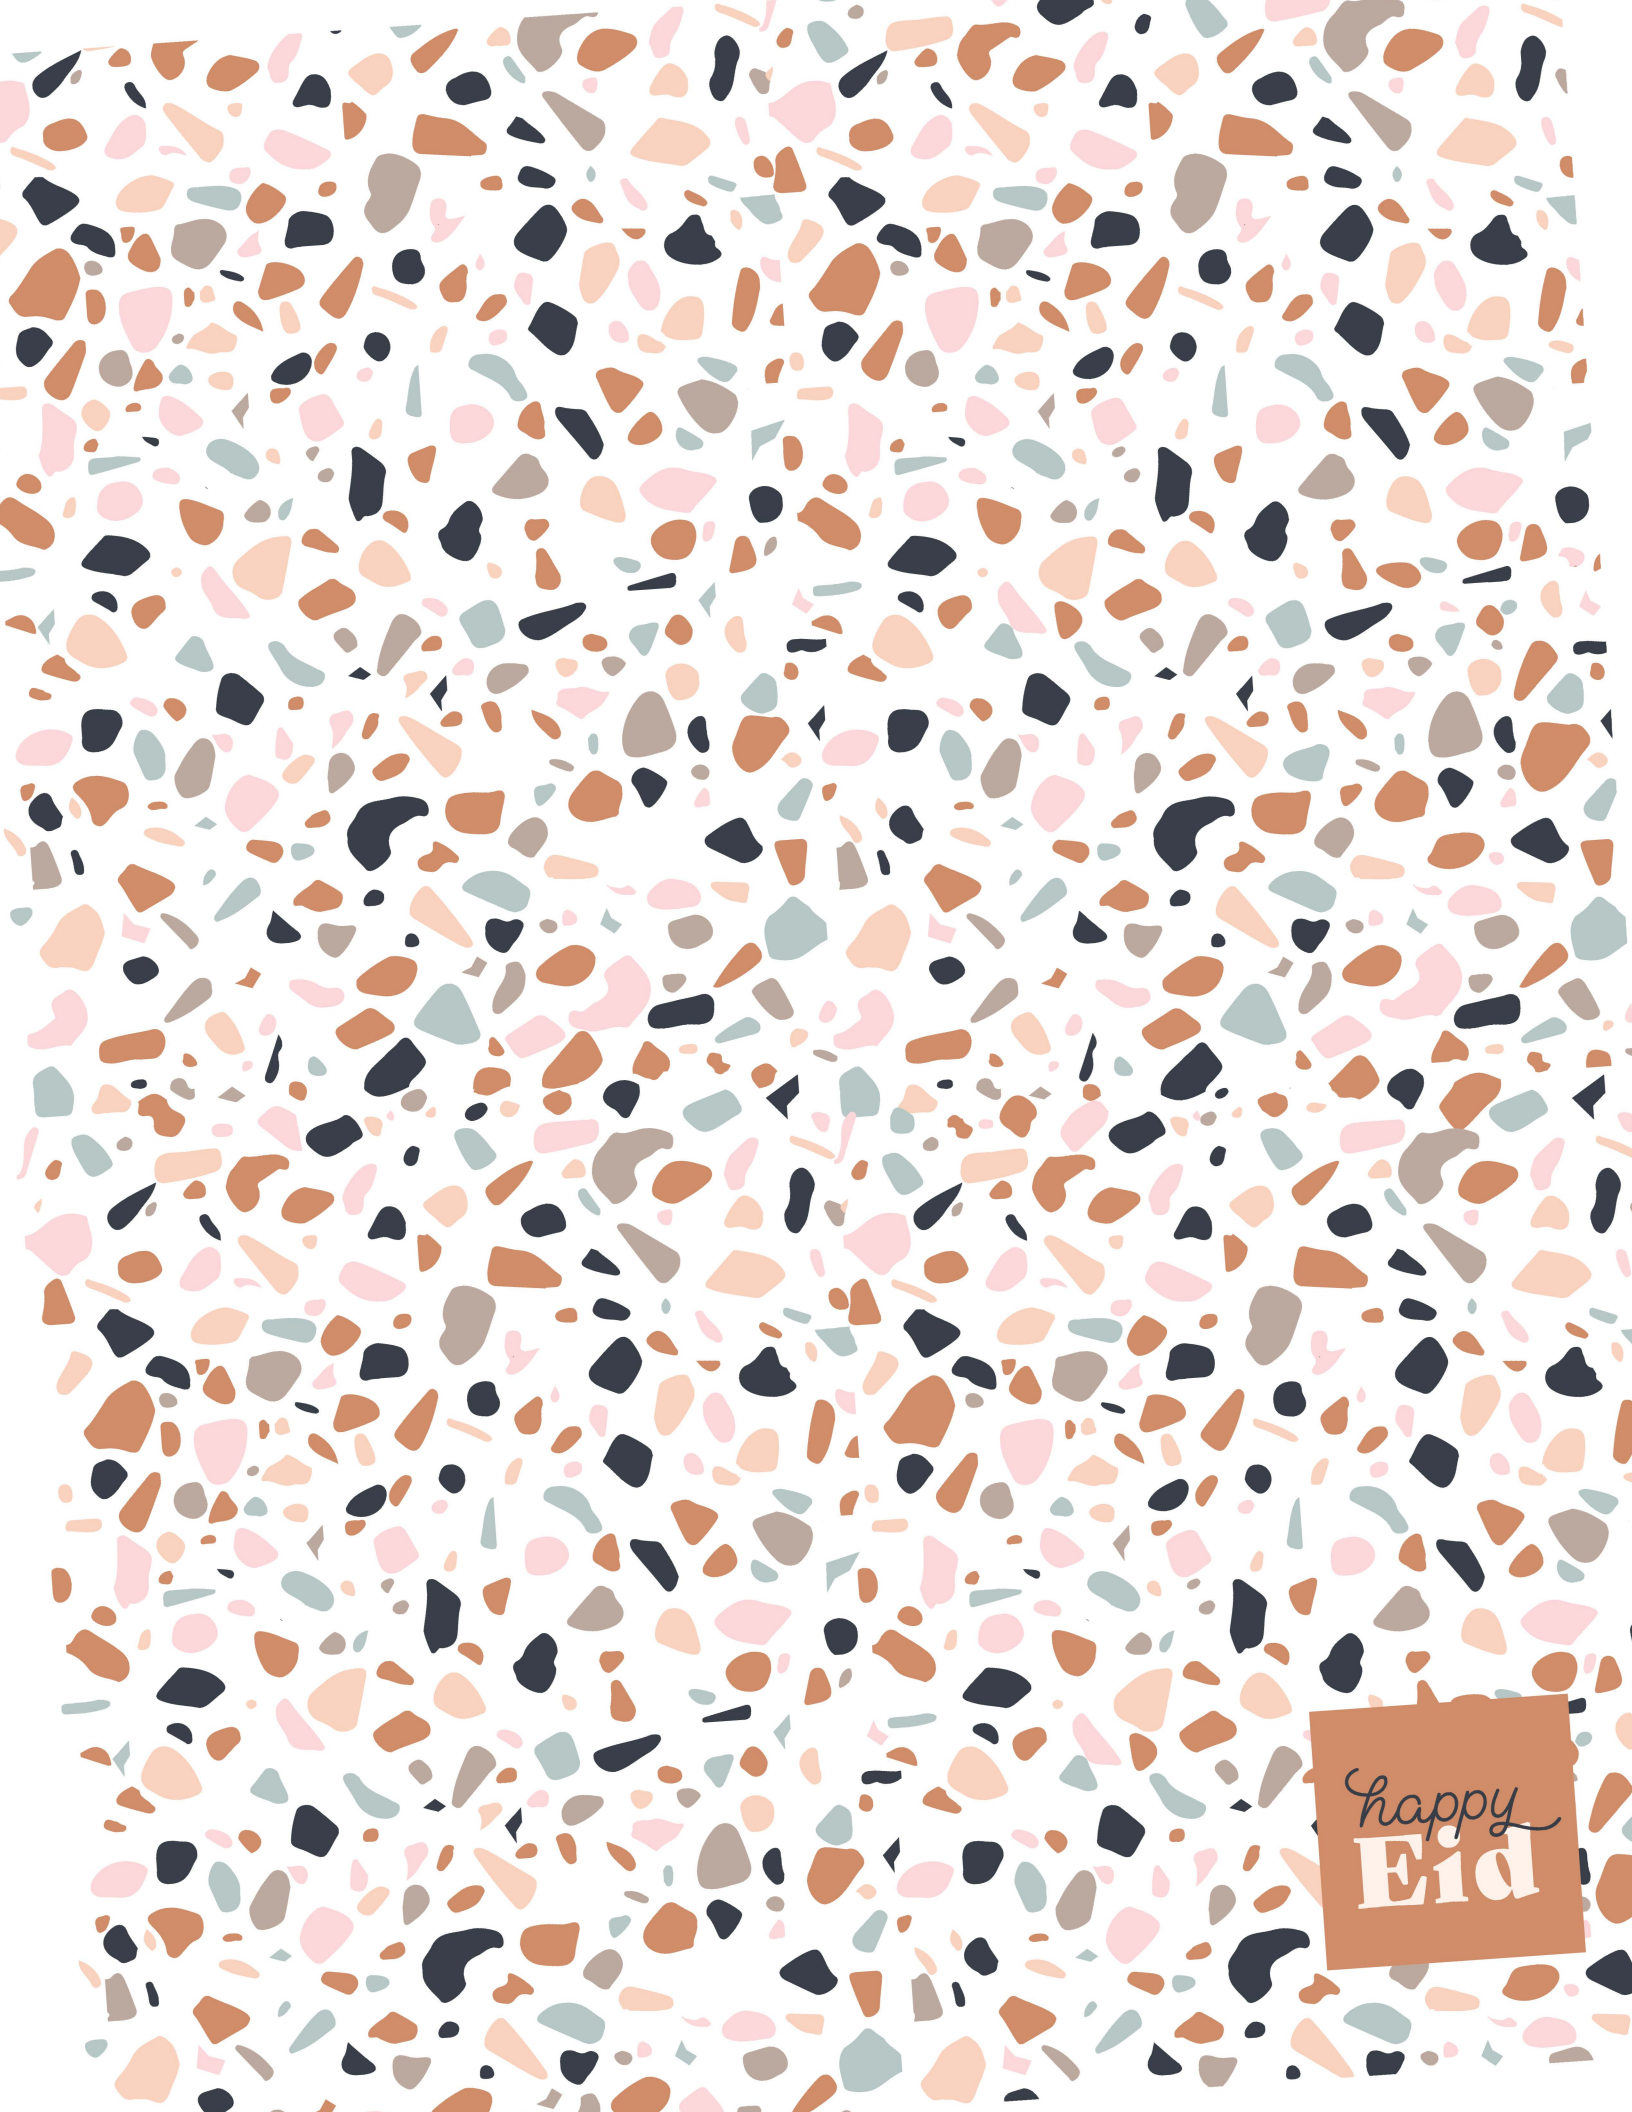

We have provided two second page options for the inside of your windows: A plain pattern OR pattern + daily tips.

1. Decide which page 2 you would like and print that corresponding page along with page 1 of the advent calendar.

2. After printing, use a ruler and an X-Acto knife to cut only the dotted grey-lines around the daily boxes. **DO NOT** cut the solid gray lines.

3. Apply double sided tape to the top and bottom edges of page 2.

4. With the text of page 1 facing up, adhere page 1 to page 2 so that the pattern /tips will show through the windows when opened.

5. Each day open a door to that window and fold back to reveal the pattern/tip. Enjoy!

You can frame this countdown in a 8.5x11" frame without the glass for added durability and style.

happy Ramadan
